

Dryer Plant Project Tracker

Development Commit Schedule

COMMIT 1	Card & Data Cleanup	READY TO START
• Streamline card creation (Job #, Customer, Type, Status, Quoted Price, Notes) • Job Number placeholder → TI-XXXX format • Add Project Type field (Frac Sand, Soil Remediation, Aggregate, Parts, Other) • Add Status field (Lead, Active, On Hold, Complete) • Card color coding by Project Type • Move Install Cost & Freight off creation screen → job dashboard • Add Customer PO Number field • Add Contact Log tab (calls, emails, meetings)		
COMMIT 2	Schedule / Gantt View	PROJECT MANAGEMENT
• Per-job Gantt chart tab • Milestone timeline with dependencies • Lead time visualization per line item • Critical path highlighting • Job costing phases (Engineering, Procurement, Fabrication, Delivery, Install)		
COMMIT 3	Cross-Job Reporting Dashboard	PROJECT MANAGEMENT
• Global dashboard view above the board • Total committed vs. actual spend across all jobs • Jobs by stage & type breakdown • Overdue deliveries alert list • Forecast at completion per job • Committed vs. actual cost layer		
COMMIT 4	Revision Log & Change Orders	DOCUMENT CONTROL
• Unified revision log per job (quotes, POs, drawings) • Change order tracking (scope, price delta, approval status) • Quoted Price locks on signed customer PO • Impact on margin tracked per change order		
COMMIT 5	Drawing Revision Control	DOCUMENT CONTROL

- Drawing register per job
- Revision history per drawing
- Link drawings to line items (ordered-off-rev tracking)
- Drawing revisions feed into unified revision log

COMMIT 6 RFI & Submittal Logs

COMMUNICATIO
N

- RFI log per job (description, sent date, response date, status)
- Submittal log (vendor submittals, approval status)
- Open RFI count visible on card face

COMMIT 7 Document Attachments

INFRASTRUCTU
RE

- Attach files to jobs and line items
- SharePoint / OneDrive integration via MS Graph API
- Local file storage fallback

COMMIT 8 MS Graph & Act! Integration

INTEGRATIONS

- Act! CRM customer lookup & data population
- Outlook email threading per job
- Teams notifications on milestone completions
- Outlook Calendar sync for milestones & deliveries
- Excel report generation on demand

COMMIT 9 Mobile & Multi-User

ENTERPRISE

- Expose app on local network (phone as third monitor)
- Role-based access control (PM vs. viewer vs. admin)
- Audit trail — who changed what, when
- SSO / Azure AD login
